

Welcome to AVST Mobile for iPhone. This client application allows you to place, receive, and manage your business calls with an iPhone, all while protecting your mobile number.

Installing the Client

The client is available via iTunes® and the Apple App Store™. Do a search for **AVST Mobile** and install the application entitled **AVST Mobile**.

Configuring the Client

Mailbox ID:

Enter your mailbox ID.

Security Code:

Enter your security code.

Phone Number:

Enter the phone number of the iPhone handset on which you are installing the client. The system uses this to call your handset to connect calls.

NOTE This mobile number must be configured in the system as a mobile device.

Mobile Server:

Enter the address of your AVST Mobile Service server.

NOTE This information is provided by your IT department.

Navigation Menu Icons

In **AVST Mobile**, all the menu items are placed in the navigation menu, which can be accessed by touching the  menu icon on the upper left corner of the screen. The navigation menu consists of the following items:

NOTE Depending on your system configuration, you may not see some of the menu items listed below.

Inbox

Messages: Access your voice and fax (if fax is integrated with your system) messages.

NOTE This feature is not available for Unified Messaging (UM) accounts that store both voice and fax messages on the email server. Contact your IT help desk if you don't see this feature.

Calls: Access all, missed, received, and dialed calls.

People

Contacts: Access a list of your personal contacts.

Directory: Search your company directory.

Call

Dial: Mobile dialer that allows you to dial numbers for the system to call.

Hands Free: Automatically log into your CX mailbox.

Settings

Availability: View and modify your availability settings.

NOTE Depending on your system configuration, the Availability icon may not appear on the main screen of your **AVST Mobile** client. If you don't see this icon, you can enable it using your Web PhoneManager or your **AVST Mobile** client.

Greetings: Enable or disable your out-of-office greeting, record your name and/or greetings, and review existing greetings.

More Settings: Configure call options, notifications, and Telephone User Interface.

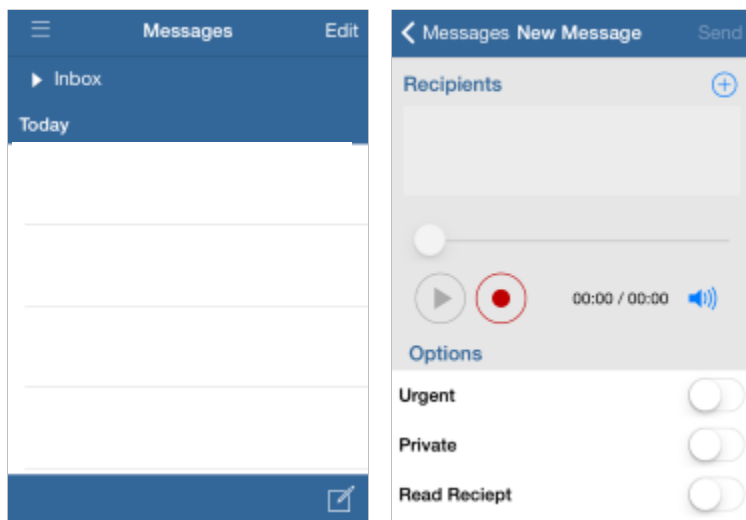

Help: Display the help for the AVST Mobile client.

Logout: Log out from the AVST Mobile client.

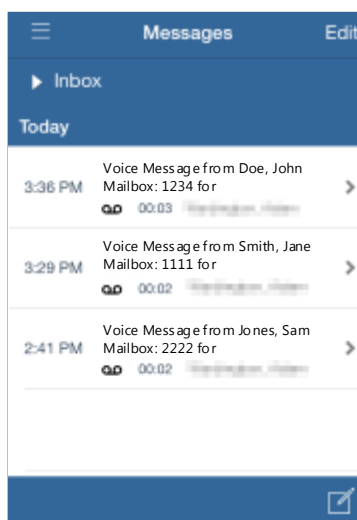

Sending a new message

- 1 Open the navigation menu and touch **Message**.
- 2 On the **Messages** screen, touch the  **New Message** icon.
- 3 To add a recipient, touch the  **Add Recipient** icon. You can add more than one recipient.
