Linux-based Messaging Solution

# Repartee

## For a Linux-based Messaging Solution, Trust Repartee

Repartee® is an easy-to-deploy messaging system designed for small to mid-size businesses to cost-effectively manage their voice communications, improve customer service and increase productivity. Built on a proven Linux platform, Repartee delivers feature-rich applications including hospitality, call processing, personal call control, voicemail, automated attendant, unified messaging, and fax.

Repartee delivers the right solution that best fits your SMB needs.

<b>Repartee LX</b>	Linux-based platform scales up to 72 voice ports, 8 fax ports and up to 5,000 UM users
--------------------	--

### Productivity with Pay Off

Repartee unified messaging provides instant access to all your messages. Designed to work with the applications you use every day, Repartee integrates with Microsoft® Outlook®, Novell® GroupWise®, Lotus® Notes® and IMAP/SMTP e-mail accounts.

Stay in touch while on the go. Repartee extends your communications to your mobile smartphone: manage your mailbox settings, see how many voicemail messages you have, download your voicemail message as a wav file, subscribe to RSS feeds, and even launch a call-back. Repartee increases your personal productivity in and out of the office.

#### Productivity Features:

- Voicemail
- Call Processing
- Personal Call Control
- Automated Attendant
- Unified Messaging
- Message Notification
- Multiple Language Support
- Voicemail-to-Text
- Text-to-Speech: Listen to E-Mail Messages over the Phone

AVST delivers the industry's most interoperable Unified Communications (UC) platform that brings best-of-breed voice, mobility and business process solutions to the enterprise. Unlike virtually every other UC vendor, AVST does not constrain customers with a single vendor lock-in approach. In fact, it's the very opposite. By connecting new and existing technologies, AVST frees organizations from the constraints of a closed, single-source UC solution, unlocking the full potential of their communications infrastructure.

With over 15 million users worldwide and three decades of innovation excellence, AVST is unifying communications®.
